

Weed Control

Pre-Emergent Herbicide

Pre-emergent herbicides are designed to prevent seeds from generating in the soil. They are most effective when applied during the rainy season. In Arizona, that means either during the summer monsoon or from November through January to take advantage of the winter rains. A timely application of pre-emergent can greatly reduce the number of weeds that germinate since it inhibits the weeds' roots and does not allow them to grow.

Post-Emergent Herbicide (winter)

Post-emergent herbicides kill weeds that have germinated and are visible in the landscape. To kill weeds in winter months, you need to use a herbicide containing Diquat. Spectracide products, which contain Diquat, are available for personal use at most home improvement stores or nurseries.

Post-Emergent Herbicide (summer)

Spring and summer are the best times to use Roundup concentrate. Be careful not to spray weed killer on plants or turf as the weed chemical is absorbed by the leaves and travels through the plant. These products cannot differentiate between plants and weeds. Additionally, this type of weed killer does not instantly kill the plant. If you spray the weed and then remove it, any remaining roots may not have time to absorb the weed control spray.

Brand: Monterey
Name: Weed Stopper II
Size: Liquid 32oz. qt.
Price: around \$36.00

Brand: Spectracide
Name: Weed & Grass Killer, Concentrate
 % of Diquat: 2.30%
Size: Liquid 32oz. qt.
Price: around \$17.00

Brand: Scotts
Name: Roundup, Concentrate
Size: Liquid 16oz. qt.
Price: around \$25.00

Brand: Green Light
Name: Amaze
Size: Granular 8lb. bag
Price: around \$14.00

Brand: Spectracide
Name: Weed Stop for Lawns, Concentrate
Size: Liquid 32oz. qt.
Price: around \$9.00

These products are approved by the Environmental Protection Agency (EPA) and have been deemed safe and reliable. No license is needed to apply most herbicides on your own property. Stillwater trains their applicators to safely transport and apply these herbicides in your common areas. Our spray applicators are Licensed Pest Applicators by the State of Arizona Office of Pest Management.
